## Cottonwood Joint School District No. 242

INSTRUCTION 2325

## **Driver Training Education**

The District may offer a Driver Training Education Program when staffing and funding are available. Any such program will be conducted in compliance with all requirements in the Idaho Standards for Public School Driver Education and Training as approved by the State Board of Education.

Anyone residing in the District between the ages of 14 ½ through 21 years of age, irrespective of whether they are enrolled in the District, is eligible to enroll in the District's driver training program. However it is recommended that the students be 15 years of age by the completion of the class. Such program, in the discretion of the Board, may be conducted after school hours, on Saturdays, or during regular school vacation periods. The District may offer a joint driver training program with other districts. Students from other districts who are enrolled in a regular school program may take driver education in the District, provided the administrator obtains permission from the student's home district. Non-resident students and adults shall be enrolled only if space is available.

No charge or enrollment fee shall be required of a student not enrolled in the District, unless public school students are required to pay such enrollment fees or charges.

A fee shall be assessed to cover those costs which are not reimbursed by State funds, except that this fee may be waived or reduced for students whose families, by reason of their low income, would have difficulty paying the entire fee. Students shall meet each of the required objectives and competencies prior to being given a passing grade. The driver education instructor may recommend additional driving hours as a condition to successful completion of the course. Extra driving instruction may be at the student's own expense.

The purpose of the program is to introduce students to a course of study that leads to the eventual development of skills appropriate for a licensed driver. The traffic education program is designed to meet the criteria established by the State Department of Education.

Students enrolling in driver education shall abide by all prescribed driving requirements and restrictions.
