

Searches and Seizure

To maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects.

Only District personnel authorized by the Superintendent may conduct a search pursuant to this policy.

School Property and Equipment as Well as Personal Effects Left There by Students

Each student is responsible for the proper care and use of the locker assigned for his or her use. Lockers may not be used by a student for the storage of illegal or potentially harmful items, including, but not limited to, weapons, drugs, and alcohol. School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by students, without notice or consent of the student. This applies to student vehicles parked on school property. Building principals may require each high school student, in return for the privilege of parking on school property, to consent in writing to school searches of his or her vehicle and personal effects therein, when reasonable suspicion of wrongdoing exists.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, and other illegal or dangerous substances or material, including searches conducted through the use of specially trained dogs. In addition, the District has authorized law enforcement officials and to conduct random searches and seizures of illegal substances in the school facilities and on school property. These random searches may include the use of specially trained dogs.

Students

School authorities may search the student and/or the student's personal effects in the student's possession when there is reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objectives and not excessively intrusive in light of the age and sex of the student and the nature of the infraction.

Seizure of Property

If a search produces evidence that the student has violated or is violating the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and

disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.
