Permissible Practices

Employees may only engage in LEA activities outside of work hours as described in Policy 5210

1. The District may grant a certified employee time off without pay or benefits to engage in LEA activities. The LEA may compensate the employee for these activities.
2. The District may allow a certified employee to use their own compensated personal leave to engage in LEA activities. This leave can only be used if the employee can freely choose how to use the leave and if the leave used is accrued at the same rate by similarly situated certified employees regardless of LEA membership or participation.
3. In the case of representational activities as described above, a certified employee may engage in the activity while on duty without loss of pay or benefits if:
 - A. The LEA reports to the District the amount of time the employee spent on representational activities. The report must be provided at least twice per year and indicate how much time each employee spent on these activities and on which days. The amount of time must be reported to the nearest quarter hour.
 - B. The District calculates the pro rata value of compensation, including wages and benefits, paid or accruing to a professional employee for time spent engaged in representational activities and provides an invoice for this amount to the LEA at least twice per year; and
 - C. Upon receipt of the invoice from the District, the LEA provides full payment to the District within 30 days.

If the District has a negotiated agreement with an LEA, the agreement shall state whether representational activities may take place during work hours through one of the processes listed above permitting such activities. Whenever feasible, representational activities shall be conducted outside of work hours. When an allowable method of conducting such activities during work hours is used, the District shall maintain records to document that the appropriate process has been followed.
